

## IMMIGRANTS & INTEGRATION IS FOR MANY JUST A MIRAGE?

22 - 23 May 2017

Plaza Santa María Soledad Torres Acosta 2  
Madrid

In this path to examine in depth the policies of integration for the migrant population, in Madrid it will begin an analyse of the key factor of the welfare system: *labour market, education/training*, which will help to *delineate a picture of activated paths in the EU Countries involved in the Project*. Moreover, it will begin a reflection on the need to *activate format of dialogue with the immigrant communities to engage them as co-producers of the welfare systems*. As first input to this reflection, *it is going to be introduced the concept of co-production and a model of partnership with migrant associations to build shared integration and local welfare policies*.
